PROFESSIONAL SUMMARY

Computer Science student at Ghana Communication Technology University (GCTU) with hands-on experience developing web projects and deploying websites. Interested in software engineering, full-stack development, and artificial intelligence. Focused on practical problem-solving, continuous learning, and building useful technology solutions.

TECHNICAL SKILLS

Languages and Web Technologies: JavaScript, TypeScript, HTML, CSS

Frontend Development: React, Vite

Backend Development: Node.js, Express.js, REST APIs

Databases and ORM: PostgreSQL, Prisma

Tools and Deployment: Git, GitHub, Visual Studio Code, Vercel

Additional Technologies: Python, JWT authentication, AI API integration

PROJECTS

Personal Portfolio Website

Personal Project | Deployed on Vercel

- Developed a personal portfolio to showcase professional identity, technical interests, and software development projects.
- Built using React, TypeScript, Vite, and CSS.
- Configured production builds and deployment through Vercel.
- Used Git and GitHub for source control and project management.
- Designed an immersive visual experience featuring a futuristic aesthetic, animations, and a particle background.

NeedIt — Full-Stack Application

Personal Project | Under Development

- Developing a full-stack application using modern web and mobile development technologies.
- Working with TypeScript, Node.js, Express.js, Prisma, and PostgreSQL.
- Exploring authentication with JSON Web Tokens (JWT) and API integration.
- Incorporating AI API integration using DeepSeek into the development workflow.
- Working with React, TypeScript, and Expo Router across web and mobile components.

Regiwhite Bakery Website

Website Development Project | Completed and Deployed on Vercel

- Completed and deployed a website for a bakery business based in the Dome area of Accra.
- Created an online presence to introduce the business and present its products.
- Focused on clear presentation, user experience, and a professional business identity.
- Deployed the website using Vercel.

EDUCATION

Ghana Communication Technology University (GCTU)

Bachelor of Science in Computer Science

Level 300 — Currently Studying
